

Construction Surveyor / Layout Person

Crooker Construction is looking to hire an experienced candidate with a focus on safety and teamwork to join the team as a Surveyor / Layout Person. The position will be responsible for surveying material piles and projects sites as well as completing layout tasks to prepare a project site for the crew coming in to complete the necessary excavation and site improvement work.

Primary responsibilities will include, but not be limited to;

- Read and interpret project drawings relevant to site work activities and projects.
- Setup and use of total station with data controller, builders level, graduated staff, and laser engineering equipment.
- Establish and maintain site layout and construction staking for performance of excavation and site work activities.
- Establish and check grade for utility installations.
- Field staking of civil structures, roads, curbs, etc., and structural building elements.
- Marking both vertical and horizontal site control points and lines.
- Checking/verification of critical civil and structural elements to ensure proper field placement.
- Complete cleaning, maintenance, and proper storage of all survey/layout equipment
- Maintains proper survey documentation for daily activities.
- Coordinates heavily with the Project Managers and site supervisors to ensure everyone has sufficient information.
- Create technical drawings and diagrams for field as-builts and other data collection/mapping related field activities.
- Assist Superintendents and Project Engineers in the review of drawings and other project documents.
- Create positive relationships with team members, subcontractors, project architects and engineers.
- Perform general labor duties as required for successful completion of projects.
- Assist in any additional duties as requested by the Superintendent.
- Properly follow all company policies and OSHA/MSHA regulations for safe working procedures and environment.
- Be heavily involved with the snow plow, removal, and shoveling planning during the winter.

In the event the survey and layout duties are complete the selected individual will be expected to remain on the project site to assist with laboring duties, operation of equipment, and other general project duties as needed.

The position is based in Topsham and is full-time, year-round.

Requirements:

- A minimum of 3-5 years of experience in construction, layout, or undergraduate-level courses in survey or other construction related field.
- Previous operation of a drone to survey material and project status is a plus.
- Basic knowledge of Microsoft office.
- Working knowledge of Topcon survey software and/or CAD programs is a plus.
- Must be able to work independently and self-motivate to complete the required tasks.
- Must be able to work the necessary schedule which may include long days, nights, and/or weekends.

Benefits:

Home every night, no overnight travel.

Vacation, holidays, health & life insurance, dental, 401k and profit sharing, boot reimbursement, and more.
